- **Authentication:** Clerk, Firebase Authentication
- **Other:** Data Analysis, Excel (Pivot Tables/Charts), French (Intermediate)

Professional Experience

Web Developer – KT Developers

December 2022 – Present

- Designed and deployed the Sunwin Security Services Limited website, ensuring responsiveness and seamless UX using React, Tailwind CSS, Express.js, and PostgreSQL.
- Built a real estate website for RM Properties using Django CMS and JavaScript, leveraging RESTful API principles for scalable architecture.
- Created and managed the Loan and Welfare application for Ghana Maritime Authority staff with Strapi CMS and JavaScript.
- Integrated **Clerk authentication** into web and mobile applications, improving security and user authentication workflows.
- Developed mobile applications using **React Native**, enhancing accessibility for users on Android.
- Conducted CMS training sessions for staff, improving their content management skills by 50%.
- Enhanced UX through usability testing and iterative feedback, boosting user satisfaction by 30%.

Private Tutor – Python & Web Development

June 2024 – Present

- Mentored students in Python fundamentals and web development concepts, including HTML, CSS, JavaScript, and responsive design.
- Provided hands-on projects such as building interactive web applications, introducing debugging practices, and version control (Git).

Web Developer – Chingu

May 2022 – August 2022

- Developed a responsive gym website (T3 Gym) using React, HTML, CSS, and JavaScript within an Agile framework.
- Collaborated with an international team, fostering effective communication and teamwork.
- Gained foundational experience with Angular through a hands-on project.

Assistant Meteorologist – Ghana Meteorological Agency

September 2019 – August 2020

- Collected and analyzed weather data to prepare forecasting reports.
- Collaborated with researchers to interpret meteorological trends and present findings.
